

## ASKING ABOUT NUMBER

If you want to find out the number of objects that exist, use *How many*.

How many dragonflies can you see?

Let's do some Maths

add

$$6 + 2$$

six plus two equals eight

$$7 + 3$$

seven and three is ten

subtract

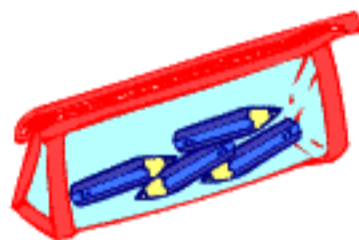

$$5 - 2$$

five take away two is three

$$9 - 8$$

nine minus eight equals one

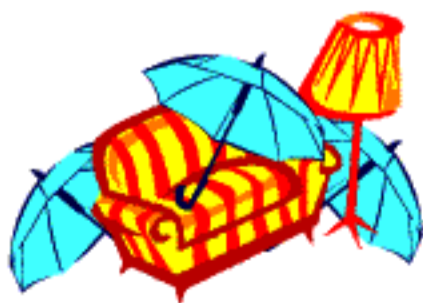

## HOW MANY?

How many pencils have you got in your pencil case?

How many legs does a centipede have?

How many umbrellas are there in this room?
