

A GAME: STARS AND SUNS. *Who is this?*

This game is adapted from the traditional game of noughts and crosses.

Rules

Your aim is to make a line of three:

horizontally

diagonally

or

vertically

Work in two teams.

When you choose a square, you must make a question about the picture in the square, and then answer.

If you are right, place your sun or star on the game board.

If you are wrong, it is the other team's turn.

The first team to make a line of three, wins the game.

You need

a game board

a set of sun-counters

a set of star-counters
