

# YOUR FAVOURITE PET

BIRD  
CAT  
DOG  
FISH  
MOUSE  
REPTILE  
TURTLE

**What does your pet tell people about you?**

**Choose your most favourite pet.**

## BIRD

You love nature and freedom. You find rules and regulations to be an utter waste of time. When you feel that you are being controlled, you will try to escape. On weekends, you prefer to travel rather than stay at home.

## CAT

You are neat, clean and tidy. You don't like to be pushed around and you won't do something just because you're expected to. You don't live by the rules - you prefer to make up your own instead. If you are interested in an issue, you will find out more about it because you want to, not because you have been told to.

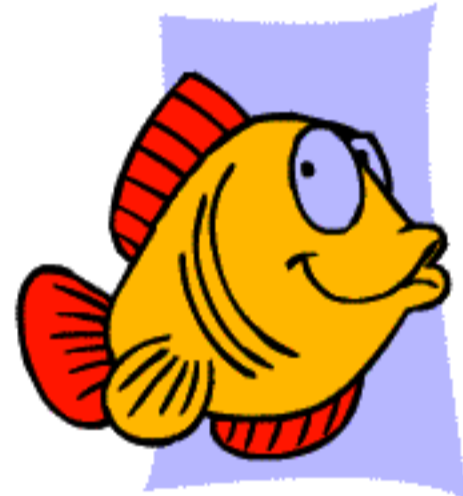

## DOG

The most favourite pet of all time is definitely the dog. Having a pet dog suggests that you are a friendly person who likes talking to people. You are outspoken and don't have any secrets or bias opinions. People like to be around you because you are sincere and loving. You don't like to say anything to hurt other people's feelings.

## FISH

You are surely an observer. You notice the tiniest details that other people usually overlook. You are a thinker, a reasoned speaker, and a good listener as well. People enjoy your company.

## MOUSE

If a mouse is your little pet, it shows that you are quite shy. If you have to do an activity, you will choose one that doesn't require you to be seen much. The same rules apply for sport: you would rather be cheering instead of playing. You simply don't want to reveal yourself to other people.

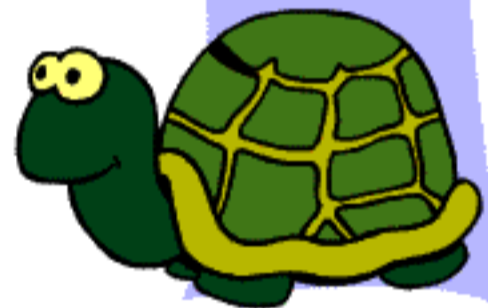

## REPTILE

You are polite, helpful and love your friends. You will do anything you can to help your friends but you don't like to be taken advantage of. You are very confident and content with your life as it is.

## TURTLE

You revel in isolation. You follow a simple lifestyle, and are gentle and hard working. You don't care much about what others have to say. Sometimes their comments hurt your feelings but you just ignore them and get on with your life.
